

Earth Science
Week 7
10/10-10/14

Dear Parents,

Last week we wrapped up our Chapter titled Rocks. Our rock kits are due this Friday, please help your child get their kits organized. Students may need to break some of their rocks into fragments. The best and safest way to break their rocks is by putting a towel over the rock, wearing eye protection and hitting them with a hammer. We will begin Chapter 4 this week. Here is what I hope to accomplish:

Monday: Go over chapter test
Begin Chapter 4
Activity: What's Inside the Earth?
Read pgs. 108-111

Homework: Sharpen Your Skills pg. 111

Tuesday: Wrap up Section 1
Begin Section 2: Heat Transfer
Heat transfer demo
Spider Diagram

Homework: Section 2-2 Review

Bring Markers & Pencils Tomorrow!

Wednesday: Mrs. O'Dea Gone to Energy Conference
Correct 2-2 Review
Read pgs. 118-122

Homework: New Vocabulary & Section 3 questions

Thursday: ***Bring Markers, colored pencils and scissors!***
Gwondwanaland Hypothesis & Conclusion

Friday: Current Science (if magazine gets here ☺)

Enjoy your weekend!!
