

Dear Parents,

This short week I will be assessing each student and reviewing some basic math calculations. Our first assignment will be very basic and will review some important foundational skills. Your child will be given an assignment folder on the second day of school. This yellow folder will contain your child's assignments as well as their grades on each assignment. Your child will be able to calculate their own grade in math, anytime they want to. Here is our schedule for this week:

Wednesday: Placement Testing

Thursday: Timed tests & Assignment 1

Friday: Correct Assignment 1
Timed test & Review Worksheet

Enjoy your 3 day weekend!! ☺
